7 Elmay Place ⋄ East Northport NY 11731

Available January to August 2020

OBJECTIVE

Diligent computer science student looking for an organization that can provide me with opportunity to improve my skills, and the opportunity to meaningfully advance a team objective.

EDUCATION

Rochester Institute of Technology, Rochester NY *Expected, May 2021*

Bachelor of Computer Science

GPA: 3.55 / 4.00

Relevant Coursework Includes: Data Management, Parallel and Distributed Systems, Linear Algebra, Programming Mechanics, Introduction to Software Engineering

PROJECTS

Stream-Notifier (Java) *Personal Project*

- Developed a bot that can respond to visual events that occur on a twitch.tv live-stream.

- Implemented an android interface that can receive notifications of events that happen on stream.

Web-Checkers (Java) *Team Semester Project*

- Coordinated with a team to develop an online checkers game.

- Used agile design principles to plan and elaborate on development goals.

- Integrated Github's branching feature into the teams workflow in order to create and test each feature independently.
